- WEARABLES • HEALTHCARE AND BIOMEDICAL
- FLEXIBLE DISPLAYS AND TOUCH PANELS
- PACKAGING • AUTOMOTIVE • TEXTILES
- SUSTAINABILITY • RESOURCE EFFICIENCY
- AUTOMATION • ROBOTICS

SCREEN PRINTING HAS A NEW HOME

Following its successful debut in 2025, Screen Print Innovations has established itself as the home for all industrial, functional, and textile applications where screen technology leads and innovates. More than a trade show, SPI is a platform to promote screen printing as a process, showcase its future, and reconnect the global community.

WHO WILL JOIN SPI 2027?

- **BRANDS** because screen and pad printing stretch across an incredible range of industries. If you are already using these processes, SPI will open your eyes to how they drive innovation in completely different fields. Some of the most powerful ideas come from adapting technologies from unexpected sectors. If you are new to screen and/or pad, this is your chance to discover the unique capabilities of future-ready technologies.

SCREEN PRINTING STANDS FOR...

- precise application of high-resin inks
- consistent quality output
- adhesion and durability
- ability to standardise
- open system, adaptable for industrial conditions

WHO WILL JOIN SPI 2027?

• **PRINTERS AND PRINT SERVICE PROVIDERS** because SPI is the first and only event dedicated to your market. Whether you plan to exhibit and showcase your latest solutions, meet new customers, or explore supplier innovations, SPI gives you a concentrated platform designed specifically for your community.

WHY SCREEN PRINT INNOVATIONS?

- one-stop global community meeting
- breakthrough technology showcase
- face-to-face exchange between innovators
- keynote talks on state-of-the-art applications
- **NEW:** Career Connect matchmaking platform

WHO WILL JOIN SPI 2027?

• **SUPPLIERS** because SPI is where you can highlight the full scope of your technology, present solutions to a highly targeted audience, and reconnect with a market that continues to grow and diversify.

VENUE

SPI takes place on 15-17 June 2027 at the modern facilities of Messe Essen, Germany. Close cooperation with Messe Essen gives us flexibility in stand design and planning. The fairground is centrally located and easily accessible in the Ruhr region, the third largest metropolitan area in Europe. The excellent transportation network ensures rapid and relaxed arrival and departure. Exhibitors and visitors from Germany and abroad can arrive by car, train, plane and caravan. Düsseldorf Airport is only 20 minutes' drive from the venue.

ORGANISERS

Screen Print Innovations (SPI) is organised by ESMA, the European Specialist Printing Manufacturers Association. Together with our partner and industry veteran, Jonathan Bultemeyer, we invite you to join this new platform for networking and learning about the disruptive developments in screen printing across all market sectors.
